

SOUTHERN
TREE
BREEDING
ASSOCIATION

The Southern Tree Breeding Association Inc.

Delivering value to Members

1. High And Competitive Return On Investment

Investment through STBA membership fees has the potential to return 10-14% for radiata pine and 17-28% for blue gum.

2. Best Practice Tree Improvement Programs

STBA tree improvement programs are progressive, independently reviewed and recognised as best practice. Program objectives are economic rather than biological.

3. Cooperative Industry-Wide Programs

Access to pooled, broad based and well characterised genetic material delivers greater gains and efficiencies.

4. Industry-Leading Data Analysis Tools

Web-based data analysis tools leverage off proven animal breeding systems.

5. Access To Highly Specialised Skills

STBA is a hub for highly-skilled staff that contribute to national research capacity.

6. Continuing Education And Training

STBA staff partner with members, universities and research agencies to innovate, generate efficiencies, and train breeders.

7. All Benefits Returned To Members

STBA is member managed and largely industry funded not-for-profit registered Research Service Provider.
